

Lesson 4.5T ~ Input-Output Tables

Name _____ Period _____ Date _____

Complete the input-output tables using the function rule.

1.

Input x	Function Rule $y = 2x$	Output y
0	$y = 2(0)$	0
1	$y = 2(\underline{\quad})$	
2	$y = \underline{\quad}(\underline{\quad})$	
3	$y = \underline{\quad}(\underline{\quad})$	

2.

Input x	Function Rule $y = x + 5$	Output y
0		
1		
2		
3		

3.

Input x	Function Rule $y = 10 - x$	Output y
1		
2		
3		
4		

4.

Input x	Function Rule $y = \frac{x}{5} + 1$	Output y
0		
5		
10		
20		

5. Write the four ordered pairs from the table in Exercise 3.

(,) (,) (,) (,)
